Copyright and Distribution Information

Congratulations on your purchase of the SMARTEST Resale package on Website Design on the Net!

You are now entitled to a 50% discount on all future releases of Genius Guide packages.

You must agree to the terms here if you wish to resell this package.

1. You must **register free** to get your reseller licenses to the 306 Web Design Templates Package.

Click here now to get your reseller license (opens in a new window)
You will be required to enter the following codes while registering
Authorised Reseller Number: 10Z65I76G200337124137
Authorized Zip Code: 400703

If you are a member of PushButton Publishing and have already registered as a reseller, there is no need to do this again.

2. You may sell this package for a profit. You may not give it away free or as a bonus. The suggested price is $47.

3. **You may not sell "The Genius Guide to Website Design Version 2.0" at auction sites.** Only Version 1.0 may be sold at auction sites. This is because of restrictions placed on individual products included in the package.

4. You are free to add any additional bonuses that you have the rights to distribute while selling it.

5. You may also sell the reseller products in this package separately, provided you upload each file to your own server, and respect the author's pricing and guidelines. Before selling or distributing any of the products included, make sure you are in compliance with rules set by the original author/creator. If unsure, contact the author/creator for further clarification.

6. You must send your customer to the link below to register their reseller license and download the latest version.
http://ebizwhiz−publishing.com/geniusguides/100868/reseller.htm

7. If you wish to customize the links to your own and allow your customer to download your copy, you must purchase the full customization rights to this

product. A limited number of customization rights are available.

8. You many not reverse engineer, modify or change this product.

9. As a reseller you are solely responsible for respecting the copyright guidelines of products included in this package. You will not hold us responsible for any loss or losses thereof resulting from the misuse or wrongful sale of the products included in this package.

You MUST sign the reseller agreement here before you can sell this package.

You will forfeit the right to resell this package if you violate any of the terms above.

Table of Contents

My Personal Favourite Website Resources

My Web Host

5DollarWebs
Excellent service, great features and control panel and the best part, you can get 500 MB of space with all professional hosting features at just $5.00 a month! This is also the webhost used by members of PushButton Publishing. Highly recommended!

My Domain Registrar

Total Online Solutions
I get all my domains here at just $8.88/year. Pay by credit card or paypal. Excellent customer service and support.

My Mailing List & Autoresponder Service

PushbuttonResponder
If you have a website, you're going to need a list−mailing service. The Unlimited, Double Opt−in Autoresponder Service provided by Bryan Winters' PushButton Publishing is one of the most powerful I've seen. This membership site is highly recommended for ALL your business needs.

My Source for Website Templates and Graphics

BoxedArt
For a low YEARLY membership, you can download Hundreds of Stunning Graphics including Templates, Mascots, Photos, Flash Templates, Logo Templates, Interfaces. The most best membership site for graphics anywhere!!

My Button Maker Software

btnMaker from Xsite
If you want to create customizable buttons for your website navigation

menu, get this cool software. Its Freeware (Open Source)

My Favourite HTML Editor

Dreamweaver
I don't know where I'd be without my trusty WYSIWYG HTML editor. It sells for about $380 but you can get it as low as $180 in the Amazon.com new and used section

My Favourite Graphics Editor

Adobe Photoshop
This baby makes it so easy to play around with web graphics. I use it to create and modify all my website and eBook graphics. Get a manual like the "Adobe Photoshop 7.0 Classroom in a Book" or use the Help file to learn how to get the most out of it. Takes a bit of getting used to, but once you learn all the tricks you'll never need to pay for graphic design again. Sells for about $580, but you can get it for as low as $219 in the Amazon.con new and used section

My Favourite Text Replacement Tool

HandyFile Find and Replace 1.2
If you've ever needed to change a lot of links in many files at once, you need this tool. It finds and replaces text in many files with a single click. You can also use it to replace text in a bunch of autoresponder messages. And the best part − its Freeware!

My Favourite Website Security Suite

Online Protection Suite
Created by my friend Amar Mehta, this is one of the most comprehensive security packages. It comes with tools to protect your downloads (works for any payment provider you specify including Clickbank and Paypal), protect your website code, scramble your email to protect it from spambots and harvesters, protect your javascripts from being stolen, cloak your affiliate links. Amar's also thrown in some great bonuses.

Table of Contents

Webmaster Software and Downloads

This is a collection of excellent software and tools to help create and improve your website. Most are free.

Web−O−Rama
Web−O−Rama is a versatile, text−based HTML editing program. Free for non−commercial use, but donations are encouraged to allow continued development.
